Safety data sheet According to EC Directive 91/155/EEC

OCO PRÄPARATE[®] GMBH

Identification of the substance/preparation and of the company/undertaking				
Identification of the prod				
Catalogue No.:	11000100			
Product name:	CALXYL®			
Manufacturer/supplier identificationCompany:OCO Präparate GmbH * D - 67246 Dirmstein * Tel.: ++49 (0)6238/926810Contact for information:Production * Tel.: 06238/9268111 Fax 06238/9268112Emergency tel. No.:++49 (0)6238/9268144				
Composition / information on ingredients				
Slaked lime				
<u>Synonyms</u>				
LIME, slaked	1205 (2.0			
CAS-No.: Molar mass:	1305-62-0 74,10	EINECS-Nummer: 215-137-3		
Molecular formula:	$Ca (OH)_2$	$Envices-remner, 215 \cdot 157 \cdot 5$		
• Hazards identification Risk of serious damage to eyes.				
Risk of senous damage	o eyes.			
First aid measures				
After inhalation:	fresh air			
After skin contact:		ater, remove contaminated clothing		
After eye contact: After swallowing:		ater with the eyelid held wide open, Summon eye specialist drink of water (if necessary several litres), Summon doctor		
Fire-fighting measures				
Suitable extinguising media:				
In adaption to materials stored in the immediate neighbourhood.				
Special risks:	None			
Other information:	Non-combustible			
Prevent fire-fighting wat	er from entering surface wate	er or ground water.		
Accidental release measures				
Personal-related precautionary measures: Avoid generation of dusts; do not inhale dusts. Avoid substance contact.				
Procedures for cleaning / absorption: Take up dry. Forward for disposal. Clean up affected area.				
Procedures for cleaning / absorption:				

Safety data sheet

According to EC Directive 91/155/EEC 11000100 Catalogue No .: CALXYL® Product name: 7. Handling and storage Handling: No further requirements. Tightly closed; Dry; Storage temperature: no restrictions Storage: Requirements for storage rooms and containers Do not use light-weight-metal containers. 8. Exposure controls / personal protection Personal protective equipment: Respiratory protection:. required when dusts are generated Eye protection: required Hand protection: required Protective clothing should be selected specifically for the working place, depending on concentration and quantity of the hazardous substances handled. The resistance of the protective clothing to chemicals should be ascertained with the respective supplier. Industrial hygiene:. Change contaminated clothing. Application of skin-protective barrier cream recommended. Wash hands and face after working with substance. 9. **Physical and chemical properties** Form: solid Colour: white Odour: odourless (20° C) pH value: > 12,6 (saturated solution) Melting temperature: not available Boiling temperature: not available Ignition temperature: not available Flash point: not available **Explosion limits:** lower not available not available upper Relative vapour not available density:

0.	Stability and reactivity				
	Conditions to be avoided:	Not information available			
	Substances to be avoided:	Acids, hydrogen sulfide, light metals			
	Hazardous decomposition products:	No information available			
	Further information:	Sensitive to moisture			
11.	Toxicological information				
	Acute toxicity:	LD ₅₀ (oral, rat): 7340 mg/kg			
	Further toxicological information:				
	After inhalation of dust:	Possible damages: mucosal irritations			
	After skin contact:	In case of perspiration/moisture corrosive			
	After eye contact: After swallowing:	Severe irritations, risk of corneal clouding, risk of blindness! Irritations of gastrointestinal tract			
	The swanowing.				
	Further data:	The product should be handled with the care usual when dealing with chemicals.			
12.	Ecological information				
	Behavior in environmental compartments:				
	Evaluation number (FRG) (fish):	3.7			
	Ecotoxic effects:				
	Biological effects:	Toxic for aquatic organisms. Harmful effect due to pH shift. Neutralization possible in waste water treatment plants.			
	Fish toxicity:	Salmo EC ₀ : < 92 mg/l; Gambusia affinis LC ₅₀ : 160 mg/l 96 h; aquatic organisms LC ₅₀ : 10 - 1000 mg/l 96 h			
	Further ecologic data:	No ecological problems are to be expected when the product is handeled and			

Product:

There are no harmonised regulations on the disposal of chemicals in the member states of the EU. In Germany, the Recycling and Waste Management Act (KrW-/AbfG) stipulates recycling as a requirement. This means that a distinction must be made between "wastes for recycling" and "wastes for disposal". Particular aspects - in the main concerning delivery - are also governed by the Laender. Please contact the competent body (authority or waste disposal company) where you will obtain information on recycling or disposal.

The contact person at **OCO PRÄPARATE[®] GMBH** is attainable through the tel. no. 06238 - 9268144 (within Germany. ++49 6238 9268144 (from Austria and Switzerland).

OCO PRÄPARATE[®] GMBH

According to EC Directive 91/155/EEC

Catalogue No.:

Packing:

Disposal in compliance with official regulations. Handle contaminated packaging in the same way as the substance itself. If not officially specified differently, non-contaminated packaging may be treated like household waste or recycled. Contact at OCO PRÄPARATE GMBH: as stated under the product.

14. Transport information

Not subject to transport regulations.

15. Regulatory information

Labelling according to EC Directives

Symbol:	Xi	Irritant	
R-phrases:	41	Risk of serious damage to eyes	
S-phrases:	22-24-26-39	Do not breath dust. Avoid contact with skin. In case of contact with eyes, rinse immediately with plenty of water and seek medical advice. Wear eye/face protection.	
German regulation: Water pollution class	1 (slightly polluting substance)		
Data sheet of the Chemical Professional Association	M004 Irritant substances/corrosive substances M040 Dealing with harmful substances		
<i>Other national regulations:</i> Swis toxic class:	4		

16. Other information

Reason for alternation

Change in the chapter on first aird measures. Addition in the chapter ecology.

Date of issue: 12.01.2011
